Subject:Elections - Explanation of delay in Anoka County voting results

Anoka County has historically been one of the first counties in the state to report voting results, but last night was an anomaly, with results of races within our county not being available until the early morning hours of Nov. 6.

This was the first statewide general election following the enactment of a new Minnesota law that allows voters to return absentee ballots to city halls, town halls, and the Government Center until 8 p.m. Prior to this year, that deadline was 3 p.m. Subsequently, many absentee ballots — more than 600 — were being collected from around the county, picked up and delivered to the Government Center, and then processed as the polls were closing.

The county also experienced high voter turnout. We were not the only county in the state to experience longer delays in reporting. Of note: less than half the results were reported throughout the state before 11 p.m. Also keep in mind, elections and voting is a process, not something just specially done by the electronic ballot counter; and a couple of our precincts had delays in reporting their results to the county.

We understand the frustration the delay caused for voters and candidates alike, but we wanted to ensure the results were complete before making that information available on the Minnesota Secretary of State website. It's important to note that we have never posted results to the state website without including all absentee ballot counts.

Delays on Election Day are a disturbance Anoka County works hard to avoid, so last night was particularly difficult, but our team performed extraordinarily well, given the circumstances. We've learned from this experience, and plans are already in the works to prevent significant delays like this from happening in the future.
