Economic Development Coordinator Thorvig stated the area north of 105th Avenue, west of Radisson Road has been identified as a redevelopment area in the 2040 Comprehensive Plan. Redevelopment is identified for this area in an effort to improve the appearance of a highly visible area, and increase employment and tax base. In general, the area includes older, and in some instances, obsolete industrial buildings with outside storage. The strategy identified in the comprehensive plan is for the EDA to acquire property from willing sellers as they come up. The long-term vision for the area is to create sites for commercial and/or light industrial development. Staff provided further comment on the purchase agreement and recommended approval.

President Ryan questioned if this property would have any soil contamination. Mr. Thorvig explained a Phase I Environmental would be completed during the due diligence period. He stated given the use on the site he did not anticipate there being any extensive soil contamination areas.

Moved by Commissioner Hovland, seconded by Commissioner Swanson, that Resolution No. 19-04, "Approve Purchase Agreement for 10549 Nassau Street NE," be approved.

Motion adopted unanimously.
